

SIPORT - Secure customer counter

**SIPORT -
The code for
your security**

SIPORT - The specialist for counter construction

The company SIPORT AG from Aargau with its proprietary secure customer counter is a leader in counter construction.

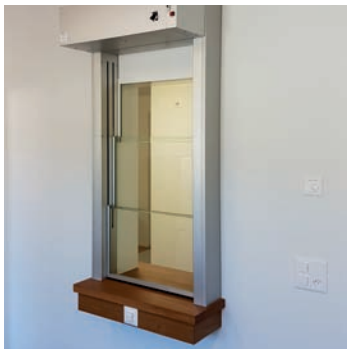

Our secure customer counter is manufactured exclusively in the factory in Mellingen for its respective location in customisations.

With an exceptionally high value and quality SIPORT integrates these counters where personnel are to be protected by closed counter fronts. Via a controlled temporary opening and closing of the window our counters offer the best possible protection against unwanted entry, raids and armed violence.

Herewith SIPORT confirms the utmost precision for the protection of persons and property.

SIPORT - Your partner in counter construction

With all our products security has the highest priority. SIPORT seeks this aim by the continuous development of its processes.

In over 40 years of our experience we have manufactured over 5,000 individually designed counters.

We also offer you a comprehensive maintenance service. With regular inspections, sophisticated spare parts concepts and long-term solutions, we attend to preventive maintenance. Thus we are able to detect faults before they turn into cost-intensive outages.

Our professional service team is happy to be at your service at all times.
